TED is an exciting new brand bringing innovative Digital Showering products to the UK market. Our mission is to deliver quality products, great customer service and amazing customer experiences through showering innovations for independent showrooms, merchants and consumers alike.

TECHNOLOGY – TED is proud to introduce a range of the highest quality digital products, including a WRAS approved design that meets stringent UK water regulations. With a vested interest in the environment, we aim to push water technology to the next level with a specific focus on energy consumption, water consumption and safety.

EXPERIENCE – We have a wealth of experience in the UK KBB market, specifically digital showering, and feel that there is a real gap in the market for new and innovative products.

DESIGN – We provide sleek and contemporary designs at affordable prices that can enhance the overall aesthetics of your bathroom. Our products are available in various finishes and styles to complement different bathroom decors.

WHY 38°C?

The Science and Sensibility of TED's Digital Showers

Digital showers, typically set to 38°C, represent the harmony of safety, comfort and energy efficiency. As TED - the UK's premier Digital Shower innovator - we've birthed 'Thirty Eight Degrees' from in-depth user studies and technological trends.

While 38°C offers a prime, researched-backed experience, we embrace individuality with fully adjustable showers. And there's an eco-conscious edge: promoting this default temperature means conserving energy, trimming utility bills, and championing a sustainable lifestyle.

With TED, it's not just about showering, it's an intelligent embrace of the future.

TED DIGITAL SHOWERING & BATHING SOLUTIONS

WHERE SAFETY, SUSTAINABILITY AND STYLE CONNECT

We understand the importance of safety, energy efficiency, and design in showering. TED Digital products offer a stylish, budget-friendly solution for an effortless experience with many benefits compared to manual showers.

BubbleSpa® Shower. See page 28-29

Precise Temperature Control

Our digital interfaces allow you to set and maintain your desired water temperature with great precision. This ensures a comfortable and consistent showering experience every time, without the risk of sudden temperature fluctuations.

Automatic Safety Shut-down

If the water or power supply fails, the shower will turn off completely preventing risk of scalding or sudden temperature spikes. This safety measures provide peace of mind, particularly in households with children or elderly individuals.

Wireless Remote Control

With a Wireless Remote available on the Togo and Venn series, you can start and stop the water from outside the shower. This feature is especially convenient for individuals with mobility issues. Additionally, the remote control ensures that water is delivered at your chosen temperature, enhancing safety for homes with young or vulnerable residents.

Energy Efficiency

All TED Digital showers are designed to be energy-efficient, reducing water and energy consumption during use, leading to cost savings and reduced environmental impact.

Easy Installation & Maintenance

TED showers are designed for easy installation, eliminating the need for complex plumbing modifications. Suitable for both stud and solid walls, the digital interface operates independently of water pipes, meaning no direct piping to the control interface is required.

WRAS Approved

The TED Togo series is WRAS approved. Having undergone independent testing, the products are fully compliant with the requirements of Water Supply Regulations and Scottish Byelaws.

Easy Divert

TED Togo and Venn shower valves have a diverter function for up to 3 outlets, providing the maximum showering flexibility. Changing between outlets is easy with icons clearly indicating your selection.

REDUCE YOUR CARBON FOOTPRINT WITH TED

The energy saved by using digital showering solutions contributes to lower carbon emissions by reducing the load on water heaters.

A conventional electric water heater emits around 12,000 pounds (5,443kg) of carbon dioxide annually, and digital showers can cut this significantly.

Compared to traditional showers, digital solutions offer several green advantages. The following statistics highlight the potential of digital showers to significantly curb water and energy consumption, making showering more eco-friendly.

NEW VENN SERIES

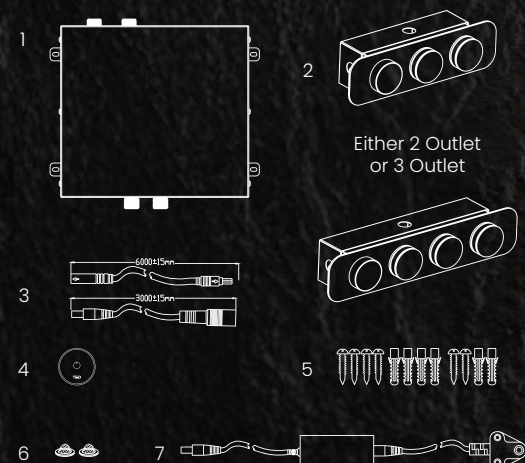

(SUPPORTS TWO & THREE OUTLETS)

Experience modern convenience with this sleek, state-of-the-art digital control panel. Designed for precision and ease, it offers intuitive one-touch controls, pinpoint temperature accuracy, and a crystal-clear LED display. Customise your water flow and settings effortlessly, while the colour-changing LED backlight provides a visual cue for temperature, so you're always in control and perfectly comfortable.

WHAT'S IN THE BOX

- 1 - 1x Thermostatic host
- 2 - 1x Control keypad and Install bracket
- 3 - 2x Power relay line and Computer trunk line (optional)
- 4 - 1x Wireless remote
- 5 - 12x Installing rubber plugs and ST4*25 (Round head with a self tapping insert)
- 6 - 2x Spherical filter screen
- 7 - 1x Power supply adapter
1x Installation and User Guide

Providing a straightforward and satisfying shower experience

With a minimalist design that seamlessly enhances any modern bathroom, Venn combines style with smart functionality. Built-in safety features guard against sudden temperature shifts, while eco-friendly modes help you save water without compromising on comfort. Choose from a sleek chrome finish and two or three-outlet models to perfectly suit your setup. Elevate your daily routine with a spa-like experience, every time you step into the shower.

2 Outlet Processor and Square Interface
VEN2-SQR-CH £1,599

3 Outlet Processor and Square Interface
VEN3-SQR-CH £1,699

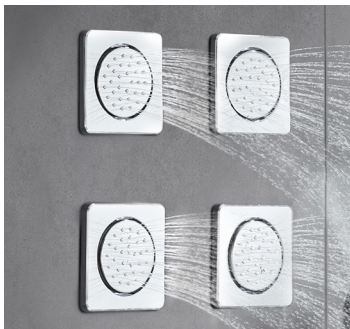

KEY FEATURES

- 370mm diameter shower head
- Crafted from ABS, a lightweight, durable, and corrosion-resistant plastic
- Fixed mounted for a steady flow rate
- 56mm buttons and digital screen
- Flow and temperature controls
- Timer setting
- Independent diverter buttons
- Three outlet version can use two outlets at the same time
- Can be positioned vertically or horizontally
- Square brass backplate
- Switch between fahrenheit and celsius
- Operating pressure 1 bar

Transform every shower into a luxurious retreat with Venn

TOGO SERIES

(SUPPORTS UP TO THREE OUTLETS)

EFFORTLESS CONTROL - EFFORTLESS INSTALLATION

TOGO SERIES
WORKS WITH
ANY SHOWER
FITTINGS

Our TOGO Series redefines intelligent showering, seamlessly integrating advanced technology and elegant design to enhance your showering routine effortlessly.

Elevate Your Daily Ritual

This exceptional collection establishes the benchmark for intelligent showering, harmoniously fusing cutting-edge technology with exquisite design engineering. Our mission is to make your daily shower routine effortlessly luxurious.

At the heart of this innovation is our digital display unit, seamlessly integrated into your bathroom. With two elegant dials, we offer a simple user experience with a host of captivating visual features. The power dial, adorned with a mesmerising play of colours, adjusts to your perfect temperature setting. Simultaneously, the digital dial provides you with all the essential details you need while you luxuriate in the comfort of your shower.

Further enhancing your experience, you can choose from our range of flute rounded trim or edge square trim, available in a selection of finishes including Chrome, Brushed Nickel and Matt Black.

WHAT'S IN THE BOX

- 1x Power Button and Oled Screen Interface (With multi outlet options)
- 1x Back Plate
- 1x 7.5 metre cable and communication cable
- 1x Mixing box
- 1x Diverter box (With multi outlet options)
- 8x Fixings and wall plugs
- 1x Washer Filters
- 1x Power Supply
- 1x Installation and User Guide

Our digital display interface brings advanced technology into your bathroom.

Intuitive Illumination

Experience a touch of sophistication with responsive coloured OLED lights that mirror the water's temperature. These intuitive indicators ensure a seamless and enjoyable showering experience.

Cool Touch

Our advanced shower controls and trim plates are isolated from the water valve, ensuring they're always cool and safe to touch.

Unlike traditional bar or thermostatic valves, none of our exposed components can scald you.

Automatic Safety Shutdown

If the water or power supply fails, the shower will turn off completely for your safety. This enhanced safety feature gives you complete reassurance.

Effortless Diversion

Our TOGO digital shower valves offer versatility, accommodating up to three outlets with intuitive icons for easy transitions.

Power Dial

Activate the flow by pressing the control dial. Once on, turn the dial to adjust the temperature. LED lights surrounding the control dial will change colour to indicate the current temperature setting. When you've reached your desired temperature press the dial. This will switch to the default outlet, which is represented by a new colour and a corresponding icon on the OLED digital display panel.

Digital Display

Our innovative easy to read digital display accurately outputs the precise temperature and selected outlet. Simple, clear and highly responsive.

TOGO SINGLE
SERIES WORKS
WITH ANY
SHOWER, BASIN
OR BATH FITTING

TOGO SERIES
(SUPPORTS SINGLE OUTLET)

The TOGO Series Single Outlet epitomises minimalist elegance, offering a refined and intuitive control experience. Perfectly designed for single outlet showers, bath, or basin fillers, this advanced interface merges cutting-edge technology with effortless usability.

Intuitive Activation

Start your shower with a single press of the control dial. The TOGO Series Single Outlet ensures a quick and easy start, making your daily routine more convenient.

Cool & Consistent Control

The TOGO Series Single Outlet ensures the control dial remains cool to the touch, even at higher temperatures, while consistently maintaining your desired temperature for a safe and comfortable showering experience.

Visual Temperature Indicators

Adjust the water temperature to your perfect setting by simply rotating the dial. The surrounding LED backlight provides a clear, immediate visual cue by changing colour according to the temperature.

Starting with a pre-set default of 38°C, you can adjust the temperature within a range from 12°C to 45°C. The LED lights transition from shades of blue for cooler temperatures to shades of red for warmer ones, offering an intuitive and visually engaging way to gauge the water's warmth.

KEY FEATURES

Pause Mode

Briefly interrupt your shower and resume with your saved settings.

Child Safety Mode

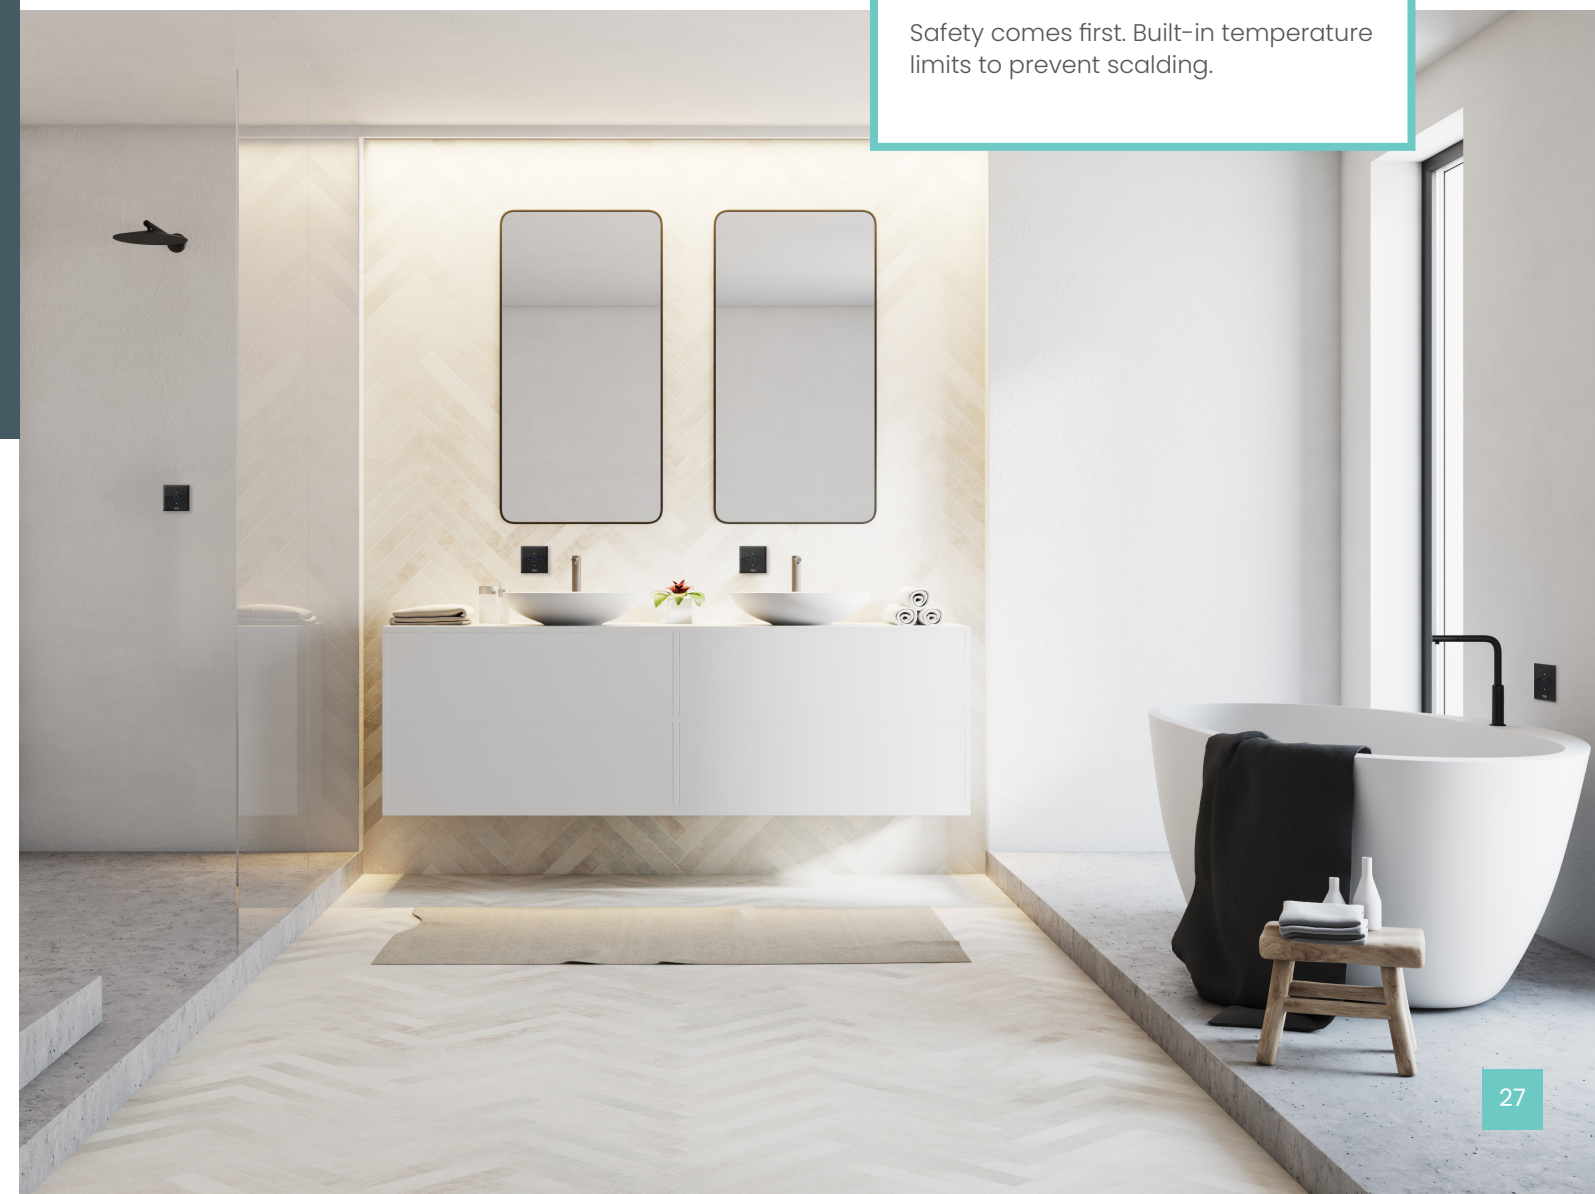

Set and lock safe shower parameters for children.

Customised Sequence

Curate sequences of temperatures and flow rates through a single outlet.

Anti-Scalding Feature

Safety comes first. Built-in temperature limits to prevent scalding.

BUBBLES^{PA}®

UNLEASH THE MAGIC OF BUBBLES^{PA}®

Step into a world where innovation, luxury, and sensory delight converge. We introduce the BubbleSpa® shower, your gateway to an unprecedented showering experience that marries cutting-edge technology with the tranquil touch of nature's embrace.

Unrivalled Experience – The Magic of Bubbles

Discover the new BubbleSpa® shower, an epitome of our dedication to crafting the world's most enchanting showering experience. With over a decade of pioneering innovation, every detail is a testament to our unwavering commitment to quality and luxury.

Holistic Shower Therapy – Indulge in BubbleTapping

Experience the soft, rhythmic touch of BubbleRain spray. Each large, air-filled droplet is a gentle embrace, reminiscent of the traditional Swedish massage techniques. This BubbleTapping therapy offers a plethora of health benefits including improved circulation, immune system enhancement, and relaxation.

BubbleRain – Drops
Spray pattern effect using lighting mode 01.

BubbleRain – Chain
Spray pattern effect using lighting mode 02.

BubbleRain – Stream
Spray pattern effect using lighting mode 03.

Multi-Sensory

BubbleSpa® transforms the daily shower into a luxury spa experience that you can see, feel and hear. Discrete LEDs illuminate the bubbles which are so big they emit a satisfying sound as they softly tap and burst on the skin.

Air-Powered™ Innovation

BubbleSpa® boasts the patented Air-Powered™ technology, a masterpiece of over a decade of innovation, ensuring unparalleled performance and indulgence.

The Bubblespa® Experience

The harmonious blend of air and water produces large, air-filled droplets that encapsulate the skin in a sensory embrace.

Each BubbleRain experience promises rejuvenation and a sanctuary from stress, a true spa-like sensation.

High-Definition Design

An embedded intelligent LED system illuminates each bubble, offering a visual symphony. With the touch of a button, immerse in varying BubbleRain spray patterns that beckon the senses into realms of calm and invigoration.

HydrO₂ Nozzles

Nestled within the shower head, sixteen precision-engineered HydrO₂ nozzles, crafted through advanced computer modelling, weave air and water into air-filled bubbles, elevating each moment under the spray.

TYPICAL LOFT MOUNTED INSTALLATION EXAMPLE OF TED SYSTEMS

Example instillation of TOGO 2 outlet system

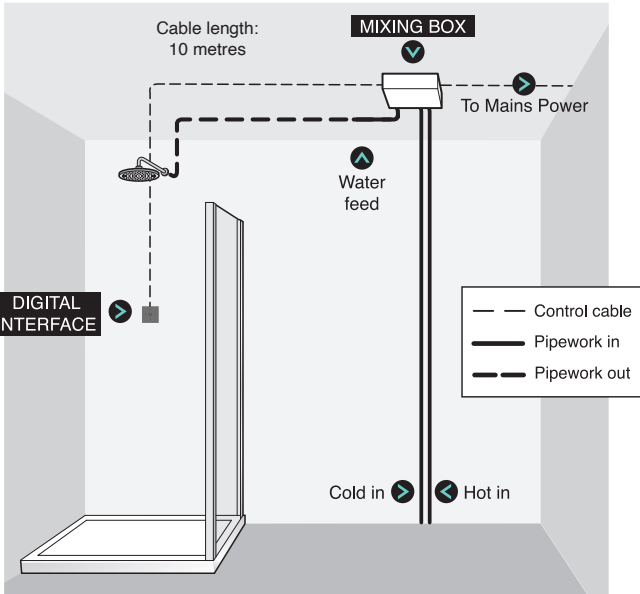

Example instillation of VENN 2 outlet system

IMPORTANT INSTALLATION INFORMATION

- POWER CABLE PROTECTION –** Ensure the power cable is installed within a conduit for protection and easy access.
- PROCESSOR ACCESSIBILITY –** The processor must remain accessible at all times.
- PROCESSOR/DIVERTER SIZE –** Processor and diverter sizes can be found on the TED website.

Example instillation of CUBA 1 outlet system

FAQs

DIGITAL SHOWERING DEMYSTIFIED: ALL YOUR QUESTIONS, ANSWERED.

1 | WHAT IS A DIGITAL SHOWER?

A digital shower is a modern showering system that allows users to precisely control the temperature and flow of water through electronic interfaces, offering a more customised and consistent shower experience.

2 | HOW DOES A DIGITAL SHOWER WORK?

Digital showers work by taking water from both the hot and cold supplies, mixing them within a digital valve to your desired temperature, and then delivering the mixed water to the shower head. The controls communicate with the valve either wirelessly or via a cable.

3 | ARE DIGITAL SHOWERS SAFE?

Yes, most digital showers have built-in safety features. They can offer precise temperature control, often preventing sudden temperature spikes. Many models also have automatic shut-offs if the water temperature goes beyond a safe range.

4 | HOW ARE DIGITAL SHOWERS POWERED?

Digital showers can be powered by batteries, mains electricity, or a combination of both. Always ensure installations are done by qualified professionals and adhere to local building and electrical codes.

5 | CAN I HAVE A DIGITAL SHOWER WITH LOW WATER PRESSURE?

Many digital showers are designed to work with various water systems, however if you have a low pressure system, you have purchase a universal pump to boost water pressure.

6 | WHAT'S THE DIFFERENCE BETWEEN A DIGITAL SHOWER AND A TRADITIONAL MIXER SHOWER?

While both mix hot and cold water to achieve the desired temperature, digital showers offer electronic control for a more precise and consistent temperature. Traditional mixers rely on manual adjustments.

7 | CAN I RETROFIT A DIGITAL SHOWER IN MY EXISTING BATHROOM?

Yes, digital showers can often be retrofitted into existing shower spaces, though installation complexity may vary based on your current plumbing setup.

WARRANTY INFORMATION

1. The Warranty applies to products purchased and installed within the United Kingdom.
2. All products must be installed by a qualified professional and evidence of this must be provided to support any claim.
3. A form of proof of purchase is required to support any claim.
4. The product must be available for Thirty Eight Degrees Limited to inspect, do not remove or destroy the product as we may request photographic evidence.
5. The product must have been installed, cleaned, and used in accordance with Thirty Eight Degrees Limited instructions. Additionally, the product should also be installed in-line with good plumbing practice (e.g flushing out pipework before installation).
6. Some products will change colour overtime due to oxidisation e.g, un-lacquered brass. Such claims will not be accepted for these products due to the nature of the materials.
7. Claims for products not performing due to insufficient water pressure will not be accepted. Thirty Eight Degrees Limited provides details of minimum pressure in the installation manual, and they can also be found online. Please check before installation.
8. If the product is faulty due to a manufacturing or materials failure we will at our discretion, repair or supply a replacement product or suitable part thereof free of charge.
9. If the product is no longer in manufacture and we cannot supply the identical product or suitable component part we will offer to replace with the nearest product from our current range.
10. Exclusions: Damage caused by lime-scale, mildew, chemicals or inappropriate cleaning and consequential damage.

CONDITIONS OF WARRANTY

All Thirty Eight Degrees Limited digital products come with up to 5-year guarantee. We offer a standard 2 years guarantee and this includes 1 year parts and labour, and the remainder of the guarantee is parts only. Once the product has been registered, the product will be guaranteed for 5 years in total.

Within this period, Thirty Eight Degrees Limited will provide replacement products or parts needed to complete the repairs, provided the fault is manufacturing related and at the discretion of Thirty Eight Degrees Limited. While the cost of replacement parts will be covered, labour and installation costs may be chargeable.

All products must have been installed by a qualified professional, and evidence of this installation must be provided to support any claim.

TECHNICAL SUPPORT

For questions or queries regarding technical support please email info@TEDdigital.co.uk.

Whilst every care is taken to provide accurate information, please note the following:

Product colours may differ from those shown in the printed brochure due to variations in printing processes and screen displays. Sizes and dimensions were correct at the time of print but may be subject to change. Shower fixings and other components may differ from the images shown.

Thirty Eight Degrees Limited reserves the right to change products and specifications without prior notice.

Errors and omissions excepted (E&OE).
