ON-TREND DESIGN FOR EVERY HOME

Whether you're looking for a contemporary bathroom or something more classic, Zaneti's wide range of bathroom furniture delivers beautifully on the latest British design trends. We offer a huge choice of styles, colours and finishes to suit any home – from spacious family bathrooms to cosy cloakrooms.

We have doors in over 25 gorgeous colours and woodgrains, from super-matt to high gloss. Handles for every taste. Mirrored bathroom cabinets, cleverly designed to make everyone look more like themselves. And distinctively handsome, hard-wearing sinks and countertops.

QUALITY BRITISH MANUFACTURE

Everything we do is very carefully considered, from the way we design our bathroom furniture to the way we make it – right here in Britain.

We add in extra touches to make you smile. Like soft-close doors that shut with a whisper. Integrated basins. Wall-mounted units to make cleaning the floor easier. Slimline units for the smallest spaces.

And our huge, centrally located manufacturing plant is fully computerised. So we can make and deliver our bathroom furniture quickly, perfectly, inexpensively, and sustainably.

THOUGHTFUL, LOW-IMPACT BATHROOM FURNITURE

As a responsible manufacturer, we are careful about how we relate to the natural world around us.

We bring in raw materials sourced in the forests of Northumberland – not shipped from the other side of the world. Our manufacturing and logistics have been set up with sustainability in mind. And we ship from our plant in the centre of Britain, which minimises each delivery journey.

We also use environmentally friendly materials that don't emit volatile organic compounds, and which contain more natural minerals.

Because it matters to you, and it matters to us.

EASY CLEAN

Any normal stain, superficial burn, graffiti or marker pen stain can be removed, immediately returning the surface to its original appearance by following the recommended cleaning instructions.

ECOLOGICAL

KRION™ is an eco-friendly material, being made up of two-thirds natural minerals. Other aspects which make it an environmentally-friendly material are that it does not emit volatile organic compounds, and is easy to repair as it can be restored to its original appearance. This reduces the need for replacement, thereby complying with the durability requirements outlined in international environmental guidelines.

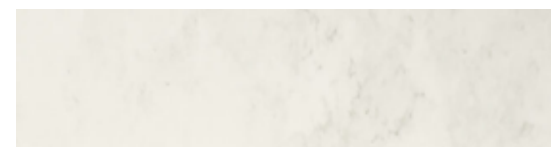

HYGIENIC

KRION™ does not allow bacteria or fungi to grow or spread. This is an intrinsic property of the composition of the material, without the need for additives to achieve this permanent effect.
